## Saturday Bargain Day Economies

Are assuredly worth while if this store is back of them. There are two combinations that surround bargains—dignity and honor, falsity and exaggeration. If you are a cynic regarding bargains, may be it's because you've been unfortunate enough to trade with houses where the latter conditions largely prevail. The true bargain, as everybody knows, represents a gainful transaction to you, the party most directly interested. It requires neither long-drawn argument nor the glitter of rhetoric to impress the character of the following offerings upon the minds of the shrewd, calculating shopper.

In the evening the day will close with a gigantic carnival, which will be the opening of the carnival, which will continue for several days thereafter, upon that it will be hard to surpass the attempt afterward.

BOOKER T. WASHINGTON COMING TO NORWICH.

Will Speak Here May 13, and Previously in Nine Other Cities of the State.

Booker T. Washington, principal of the well known industrial school for negroes at Tuskegee, Ala., will make addresses in eight different cities of western Connecticut during the ten days from April 19 to April 29. He will speak at Danbury April 19; New Haven the 23d, Waterbury the 23d, South Norwalk the 24th, Torrington the 25th, Middletown the 26th, Hartford the 28th. A little later, in the early part of May, Mr. Washington will speak at New Britain, Conn.

The purpose of these meetings, which are open to the public without charge, is, according to Mr. Washington, to bring about a wider and more intelligent interest among the masses of the people in regard to the progress, purpose and success of negro education in the south, particularly of the education represented by Tuskegee institute.

The Weeks Forestry Bill. (Written Specially for The Bulletin.)

Washington, April 8.—Although the house committee on agriculture has voted to report the Weeks forestry bill, the report has not as yet been presented to the house, and the bill is not on the calendar. The delay is caused by the sub-committee which was ordered to study up the report. They are at work on it now, however, and it is expected the bill will be reported in time to be voted upon next Wednesday, which is as early as the bill can be reached.

England and Ireland are sending out appeals to members of the house to vote for the bill, and the New England members are doing all in their power to secure a majority in the house for the bill. It is expected that it will pass, but there may be trouble ahead in the senate. Senator Brandegee will have charge of the bill in the senate, but he will not call it a success together until it has passed the house. Senator Brandegee has assured the house members that there will be no delay in getting the bill before the committee, and he will try to have the Weeks bill reported without any amendments, unless some unforeseen obstacles turn up at the last moment.

Admitted to Supreme Court. (Written Specially for The Bulletin.)

Washington, April 8.—Attorney Ernest L. Averill of Wallingford was admitted to practice before the supreme court of the United States today, on motion of Senator Brandegee. Mr. Averill expects to have the case of the state of Connecticut vs. Tillie Anderson before the court in a short time. This case has already been before the supreme court of Connecticut twice, and involves the important question to whether a person can be convicted of a crime upon evidence as to personal character of the accused.

The Gilbert Bill. (Written Specially for The Bulletin.)

Washington, April 8.—Major Tilson yesterday afternoon tried to get a resolution before the house to give an honorable discharge to Edward D. Gilbert of Hingham, but Representative Mann objected to the procedure and would not allow the resolution to come up. This resolution was introduced by Senator Bulkeley, to comply with the suggestions of President Taft and the war department in a similar case, and passed the senate without any trouble. Mr. Mann's objection was to the form of the resolution, and Major Tilson will now introduce an entirely new bill, and the whole matter will have to be done over again, in spite of the fact that a bill has already passed congress in behalf of Gilbert. Senator Bulkeley and Major Tilson will stick to it, however, until they get the bill through.

Forlorn Hope Party. (Written Specially for The Bulletin.)

Washington, April 8.—Some of the Connecticut members of the so-called "Forlorn Hope Party" are getting impatient over the delay in the house committee to report the bill. They are reporting the bill to grant medals to the survivors of the party. The bill, which was introduced by Senator Bulkeley, passed the senate some time ago, but the house committee thus far has refused to report the bill. The same thing happened last congress, and the bill never was reported to the house.

It is said the members of the committee are opposed to the bill, because it is claimed the men did not perform the service for which they were awarded as Forlorn Hope captives before it became necessary. The Connecticut members of congress are doing all in their power to induce the committee to report the bill, but the opposition seems to be too strong for them, and the bill will probably die as before.

Mr. Mellen's Goats. President Mellen purchased some Angora goats to do guard duty over the flock of sheep on his famous Massachusetts farm the other day. That was a choice incident for many newspapers, and they literally butted in and have since been telling farmers how to make a fortune in sheep raising by the simple precaution of furnishing Angora goats to guard the flock. It all sounds nice and encouraging, and works out finely, as office chair farmers are so fond of saying. Mr. Mellen goats may be particularly delig-

ent and win records as dog fighters, for, having been brought up under the influence of the courage inspiring Elm city beverage knock as "Rock," it is possible that they may be four-footed Jeffries or Jacksons. But, unhappily for them, the average Angora is but little more dog proof than the sheep he is expected to defend. The experiment was thoroughly worked out hereabouts some years ago with result that the town paid for as many dog-murdered goats as it did sheep, and the

farmers gave up goat breeding in disgust. However, there is no telling how long New Haven goats may prove to be.—Bristol Press.

New Use for Baked Beans. A neatly dressed woman rushed into a Euclid avenue grocery recently and asked the different sizes of pots of baked beans that the grocery keeps put up hot ready to take home and serve.

"I guess the small size will do," she said, hesitating.

"How many do you desire to serve?" inquired the clerk, ready to advise.

"Oh, I'm not buying them to serve," the customer replied. "Of course I shall use them, but I'm getting them to keep my hands warm on the car, I came away from home without either mitts or mittens."—Cleveland Plain Dealer.
